<https://www.facebook.com/poppetsdollybits>

Well hello to you all from all of us during this time of lockdowns, isolation & the stress, worry & sadness, that many of us may be living through. We would just like to touch base with you all & see if we can help to keep you nicely busy during your time out with a little newsletter update & just lighten the load on those shoulders of yours a little bit.

We just had a website birthday though we have been in business for 13 years now but we have had a massive and gorgeous revamp of our website so we thought we'd let you see some of our newer items to go along with it. We started out on Etsy & other sites as many of you know in 2007, but now we concentrate our absolute best efforts on our own website. Why because we can set pricing & delivery & sell as many items as we want to giving you more choice (9000 items) better postage offers & thousands of different items we never sell anywhere else & always cheaper than Etsy & Amazon where we sell a few of our items.

Lovely new papers including a whole range of French chateau & Mid-century, Lundby style, Retro, Historic classics, Voysey style & William Morris. In fact, thousands of wallpapers in :12 :16 :24 & even :48 scale, we do them in a lovely A4 matt coated heavy paper & we can do in peel & stick for just a little higher cost per sheet.

THOUSANDS TO CHOOSE FROM <https://poppetsdollybits.com/products/wallpaper-collections/>

NEWSLETTERS OFFERS

1. clear peel & stick window stickers to give your plastic windows a FABULOUS stained-glass look, just cut out, peel & stick ONLY £3.49 FOR A FULL SHEET CHOICE OF 5 <https://poppetsdollybits.com/products/stained-glass-effect-plastic-panels/>

HOW TO

These great baking tins are the holders from old eye shadows

HOW TO Make little bonbon or cupcake dishes from clear plastic buttons!

Take buttons pins & beads

Glue them as shown

Add fimo or beads as sweets etc

PRINTIES

1. Copy & paste on to word doc
2. Resize to suit your project
3. Print, cut out,
4. Use a cocktail stick to mark folds so they are crisp when folding
5. Glue all tabs together & voila

Hints & Tips when working with miniatures

1. Always use a lighted magnifying lens when making miniatures – it makes everything so much easier and it especially when using clay for modelling
2. Toothpicks are a crafter's best friend- use them for everything!
3. cut on self-healing mats, they grip & avoid nasty finger slices Yuk! last really well & protect all surfaces
4. When wallpapering your house or working with paper products never use hands or a cloth for a good finish, buy a cheap little rubber craft roller instead - it stops you rubbing the surface off your precious papers when damp.
