

Hi DOLLYBITZERS

This month has seen us working on our wallpaper borders on both the website and Etsy, and some lovely new stained glass lumiplex panes for the website. Remember we only have a very few items on Etsy because a lot of people prefer to buy on the auction sites, very understandable in these days of fraud and scams online, which is why we at Poppets Dolly Bits use PayPal as our trading merchant and payment system - because it's the SAFEST! But we also accept cheques, bank transfers and postal orders if that's what you prefer. We are all about reputation, friendliness, quality & choice. We also sell our items cheaper on our website & there's a lot more to see.....Including all our newest items like these gorgeous borders.

As we are real life decorating YUK & it takes us 1 week just to empty the office & store all the million tiny things - can you imagine how much tiny stuff we have in there, before we even think about the tools of our trade – the very thought depresses us, in fact it takes a lot of coffee & cakes to get through every day.....

THIS MONTHS OFFER

As those of you on Face book probably know we regularly have news & offers going on there, and we love to have you comment or like our items all you need to do is click on like on our Facebook Business page (you don't need to have a Facebook account to see it) and don't forget to sign up to this Website newsletter if you aren't a subscriber to get the best offers.

September's offers are all about our brand new items etc.

1. Buy any sheet of borders on our site and get a free ceiling centre with every sheet.

2. Get free postage on all gift vouchers – only 150 sleeps till Christmas you know...SORRY ☺
3. For anyone not on Facebook our monthly newsletter is where you will find our offers just sign up & you will be kept up to date. EASY! Free printies on every newsletter sheet!

French Chateau collection

We have a brand-new wallpaper collection underway out now & here's a little preview of some of the beautiful French designs we have. It will be called the French Chateau collection and it's a little bit shabby chic and a lot of elegant period French.

Some new plastic-stained glass flexible panes out now too, beautiful stained-glass designs & so simple to fix in place on your dolls house windows doors or mirrors don't forget they can be customised at no extra cost to fit to your exact project size too!

We even offer a money back guarantee ON ALL OUR ITEMS (EXCEPT CUSTOM MADE) even if you just change your mind when you purchase something because it looks slightly different to how you imagined-all you pay are postage costs both ways. Happy shopping & remember anything we can help with just contact us, happy you, happy dollies, happy us!

DID YOU KNOW: Glues can be the best thing ever but there are some tricks that will help you to avoid the pitfalls of disastrous gluing attempts on items where they just won't stick. PVA glues are our absolute favourites they are non-toxic with no fumes, and a pleasure to use. They clean up with water and dry clear, perfect for all crafters. There are a whole lot of choices you can make from using acid neutral glue to super glue. We use ordinary white craft glue most of the time and only occasionally super glue, horrible stuff but sometimes it's the only thing that will do the job! Don't forget those super little sticky dots either we would be lost without them to hold items on an upright surface from things on a table in your dolls house to fixing things in one place while we work on them. When it comes to fixing our wallpapers and borders to walls, we stick to ready mixed white wallpaper paste from any DIY shop, don't buy dolls house wallpaper paste it's SO expensive and unnecessary. You can fix wallpaper with Pritt stick if you want to, and in fact it's great for fixing our wallpaper borders up! Save money wherever you can because hobbies are so expensive and dolls housing is certainly one of the most expensive in our book. Hope this helps save a few pennies.....now go spend them in our shop lol.

HOW TO 1:

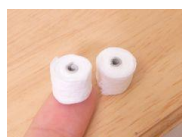

MAKE A CUTE LITTLE CHEST

1. Take two matchboxes & stick together.
2. Cut 4 pieces of card to glue onto the 4 sides, glue & leave to dry.
3. Use any colour acrylic paint you want to use & when that's dry, paint flowers or anything you like to match your décor.
4. If you want the look on the picture you need to cut out small pieces of card (see image) & glue on to drawer fronts for that built up look.
5. Add pretty beads as drawer handles & chunky beads for legs.
6. For a final touch leave a pretty piece of lace sticking out from a slightly open drawer or whatever you think works for you.

HOW TO 2. MAKE MINI LOO ROLLS 😊

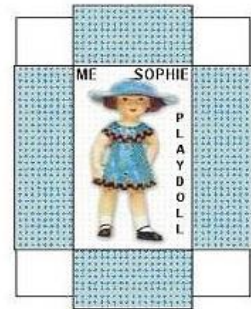

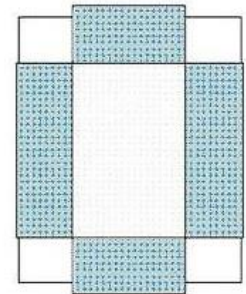

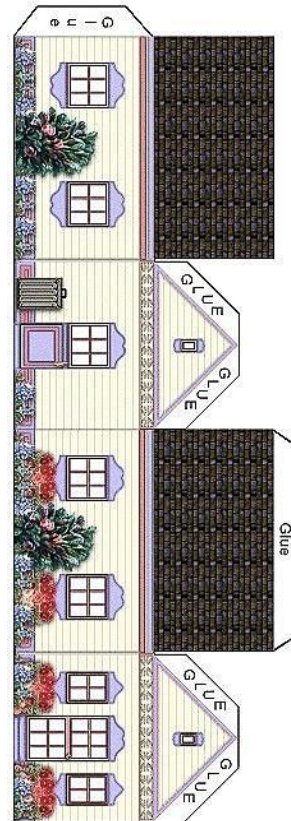

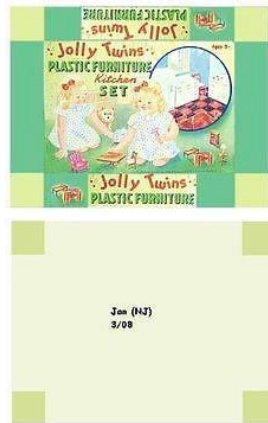

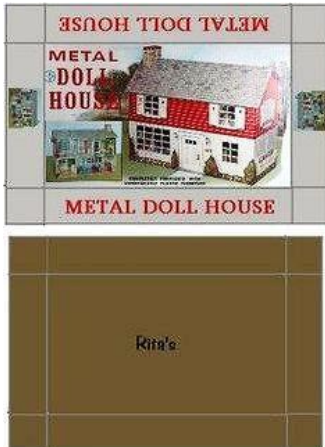

1. Roll thin tissue paper around a thin drinking straw.
2. Use a little dab of glue to hold it in place if you want to.
